

KOODAL

கூடல் where communities come together

**One platform where any
community reports, verifies
and resolves its issues in
the open.**

• Governments • Apartments • Campuses • Institutions

THE PROBLEM

Every community has the same **broken loop.**

Issues are reported, forwarded and forgotten, whoever the organization is.

Cities

Complaint portals nobody can follow up on.

Apartments

WhatsApp groups and paper registers.

Campuses

Emails and forms lost between offices.

Institutions

Help desks with no proof anything was fixed.

THE SOLUTION

One loop. Closed in the open.

Report

Photo, voice or text, in any Indian language.

Verify

Members support it and add evidence.

Assign

The right team gets it, with a deadline.

Resolve

Updates and proof on one public timeline.

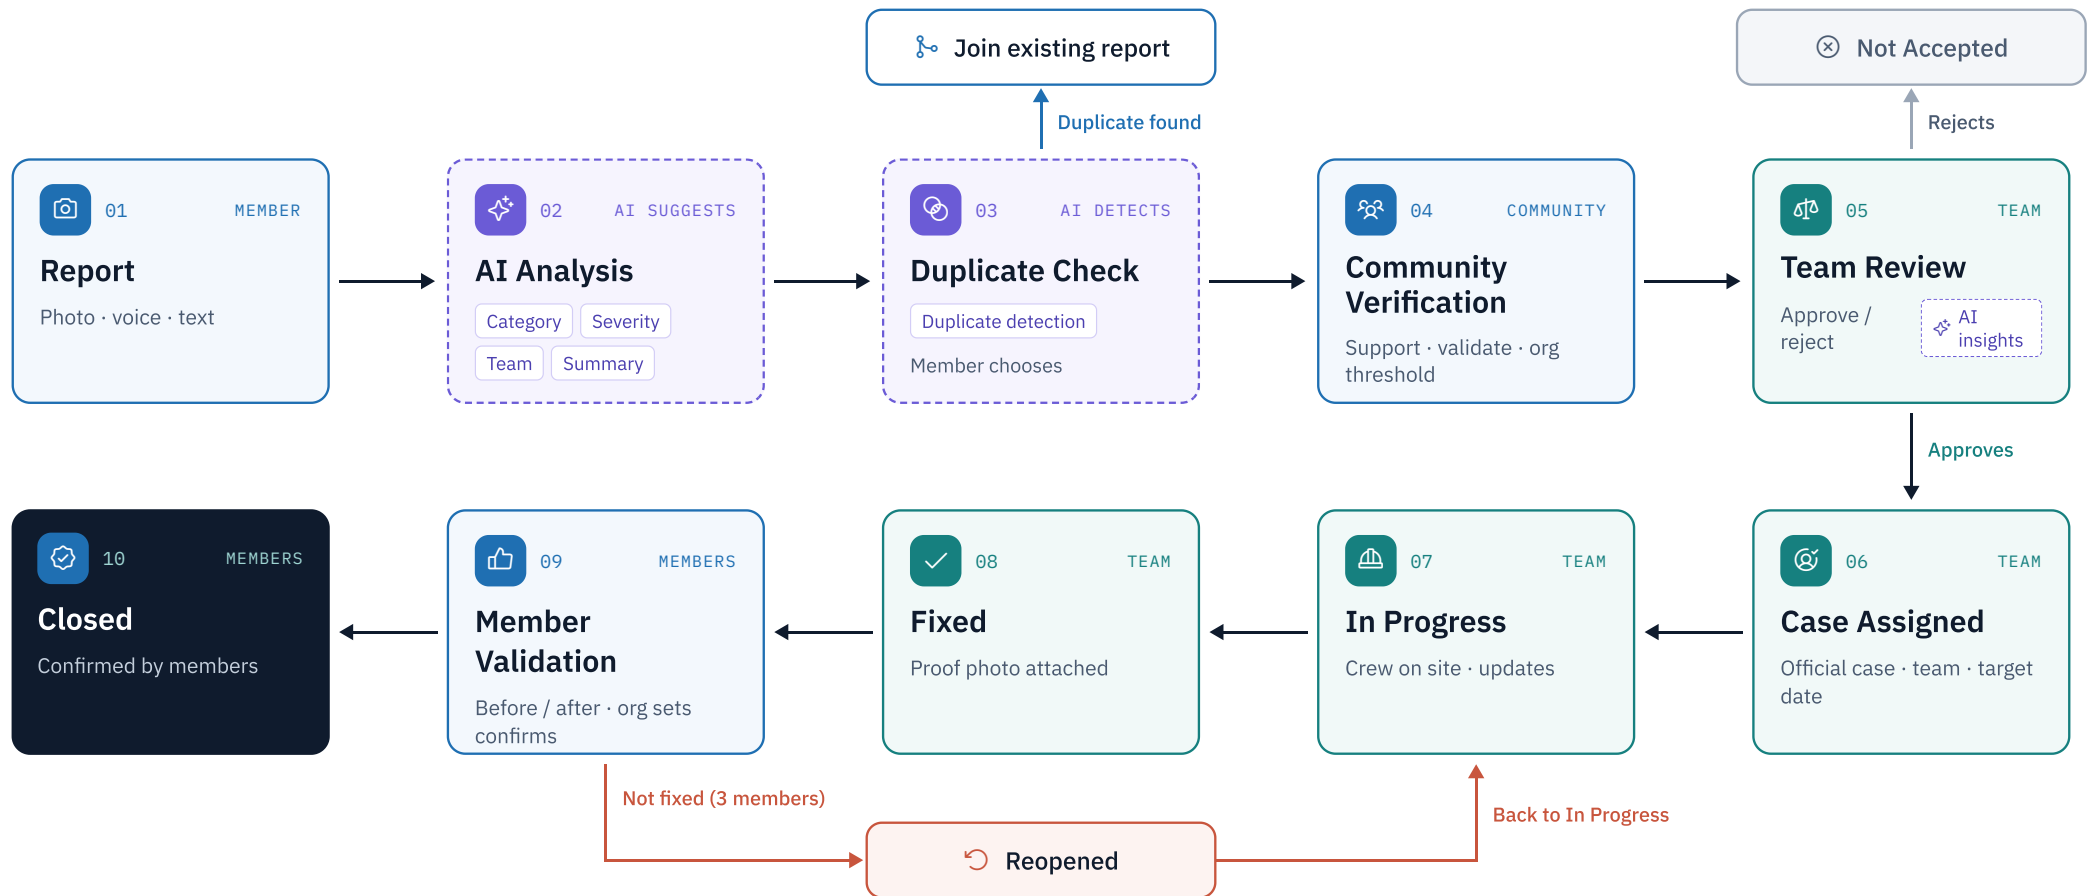

Confirm

Members close it. Or reopen it.

KOODAL — Complete Report to Resolution Flow

■ Members decide
 ■ Teams decide
 ■ AI assists

✦ **AI suggests.** Members and teams make every decision.

ONE PLATFORM

Account. Organization. Role.

Each organization subscribes and gets its own private space. People use one account for every organization they belong to.

Madurai Corporation

Government · citizens and departments

Green Valley Apartments

Apartment · residents and services

ABC University

University · students and offices

Kaveri Hospital

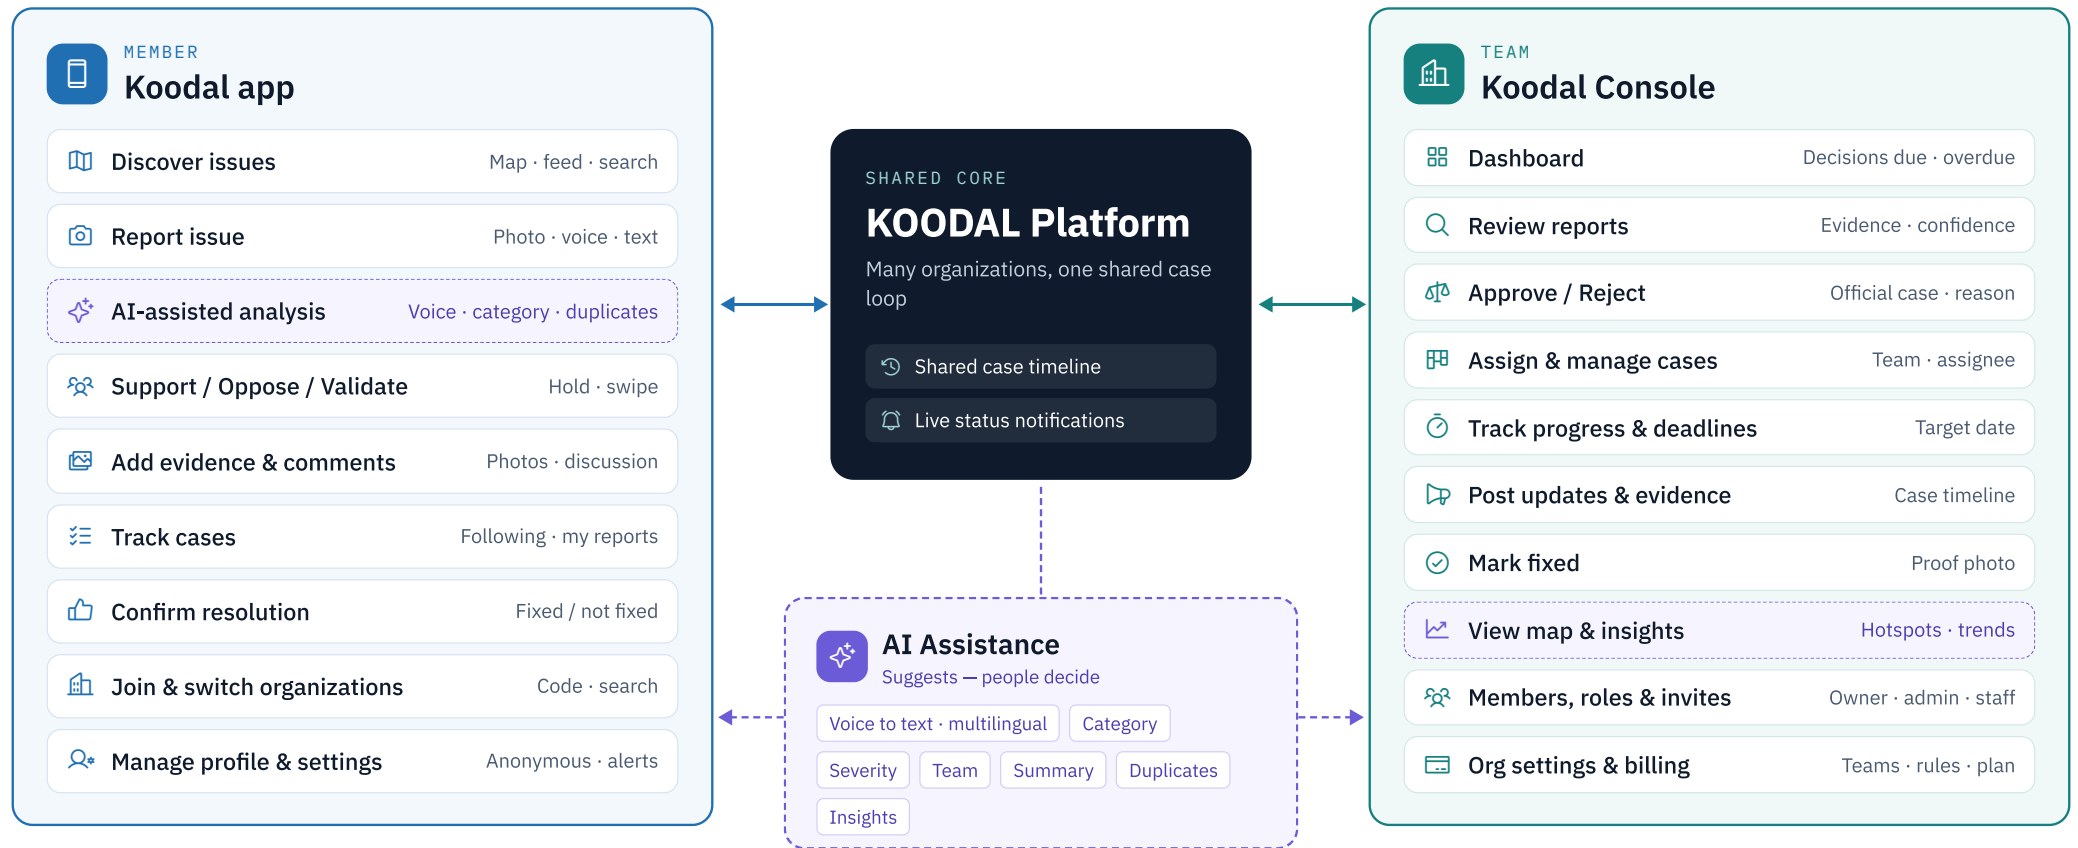

Institution · members and teams

SAME PRODUCT, THEIR WORDS

Set up in minutes for any organization.

	Government	Apartment	University	Institution
Members	Citizens	Residents	Students	Staff
Teams	Departments	Services	Offices	Teams
Categories	Roads, drains	Lifts, plumbing	Hostel, Wi-Fi	Facilities, IT
Joining	Open to all	Invite + approval	College email	Invite code

KOODAL — Platform Features by Role

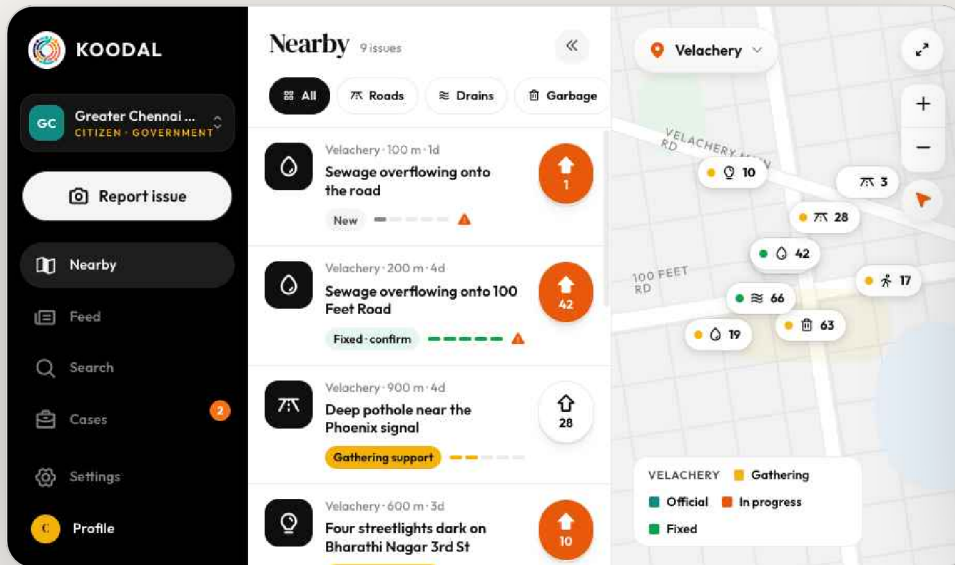

✦ **AI assists both roles.** Members verify and confirm, teams approve and resolve.

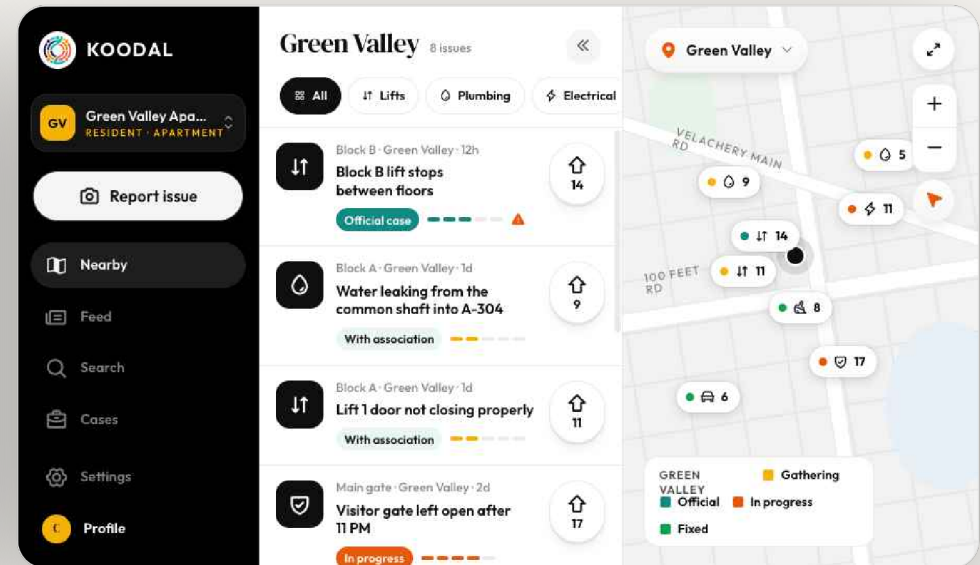

KOODAL APP · FOR MEMBERS

One app. Every community.

Switch organizations from the sidebar. Your account, language and history come with you.

Greater Chennai Corp. · roads, drains, garbage

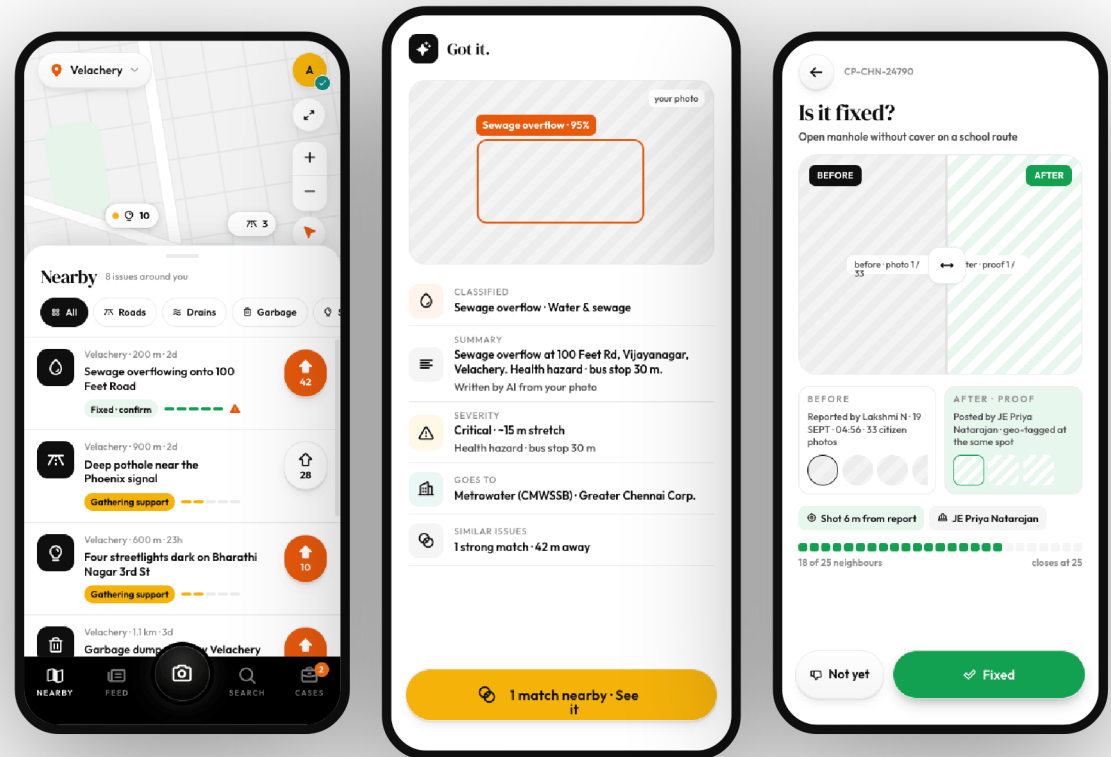

Green Valley Apartments · lifts, plumbing, security

IN YOUR POCKET

Report in a minute, in your language.

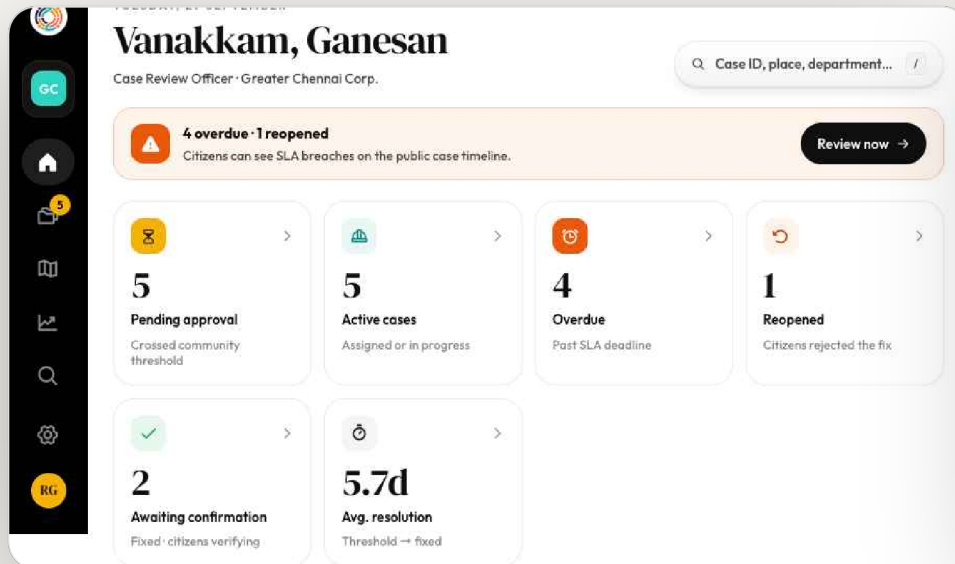

-  Voice notes in 12 Indian languages
-  AI suggests category and team
-  Duplicates merge automatically

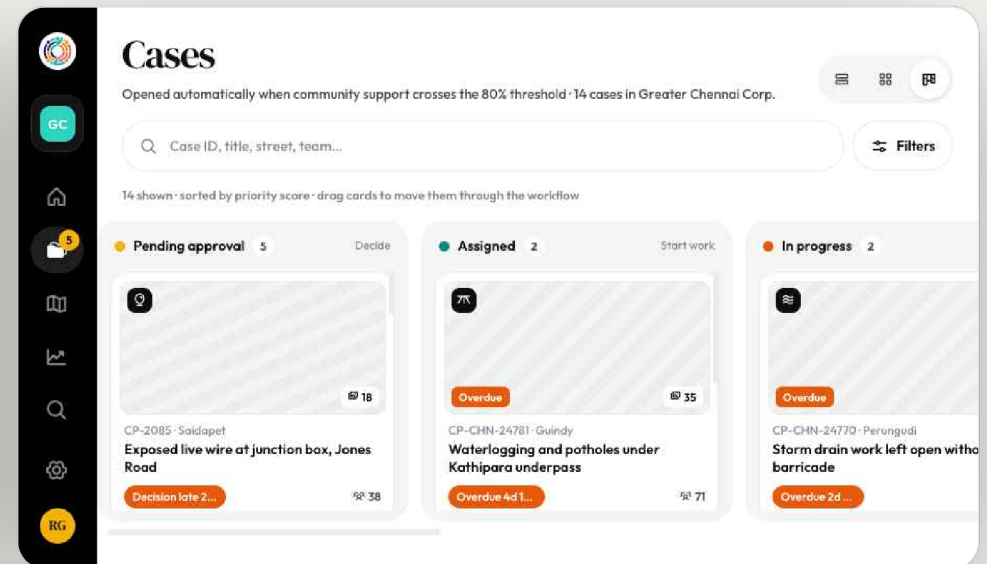

KOODAL CONSOLE • FOR TEAMS

Decide, assign, fix.

Staff see only their teams' cases.
Every decision appears on the
public timeline.

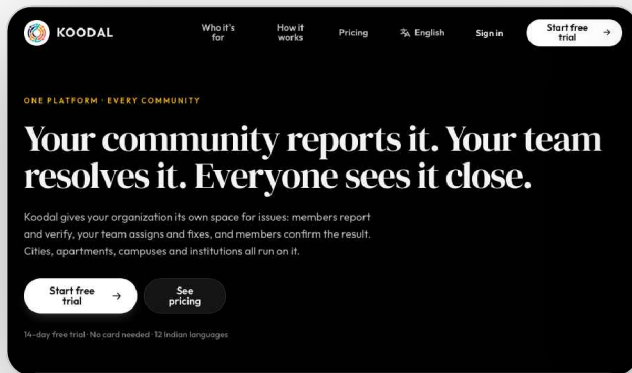

Home • decisions due, overdue and reopened

Cases • a board from approval to fix

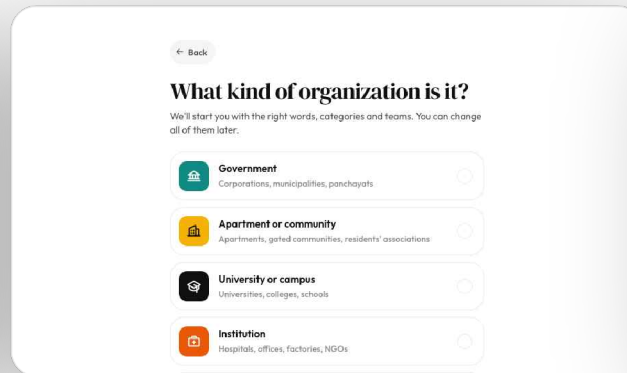

SELF-SERVE ONBOARDING

From discovery to live in one sitting.

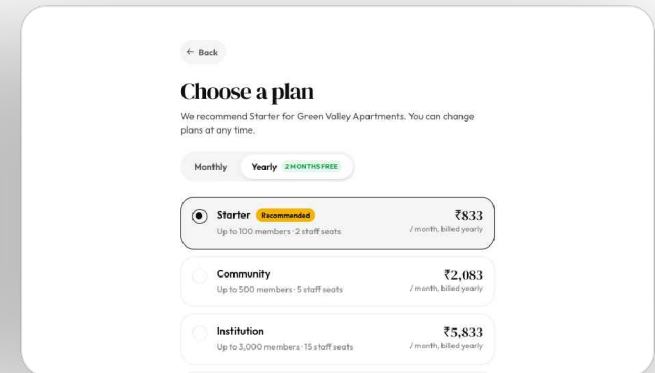

1 · Discover

14-day free trial, no card

2 · Choose a type

Words, teams and categories set up for you

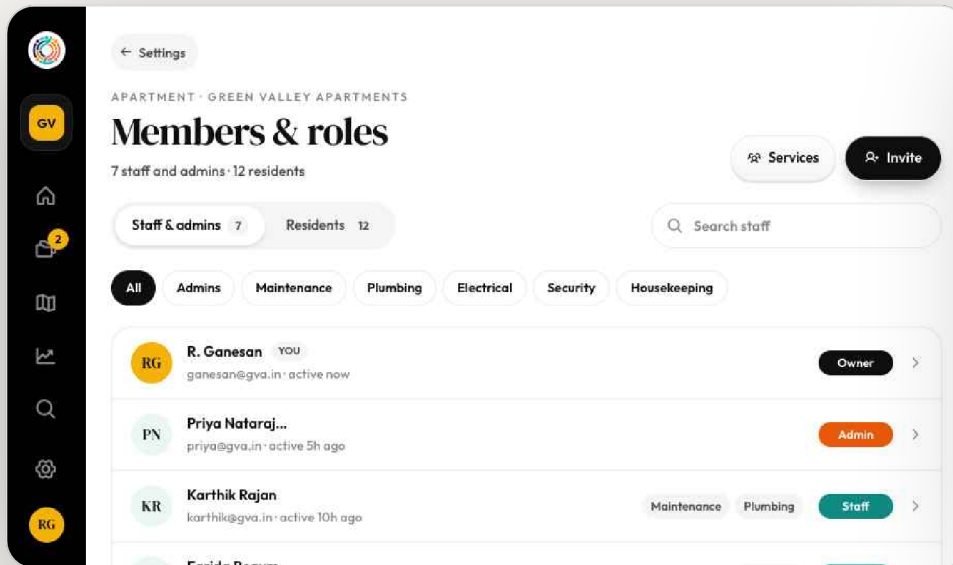

3 · Pick a plan

Recommended by size, change any time

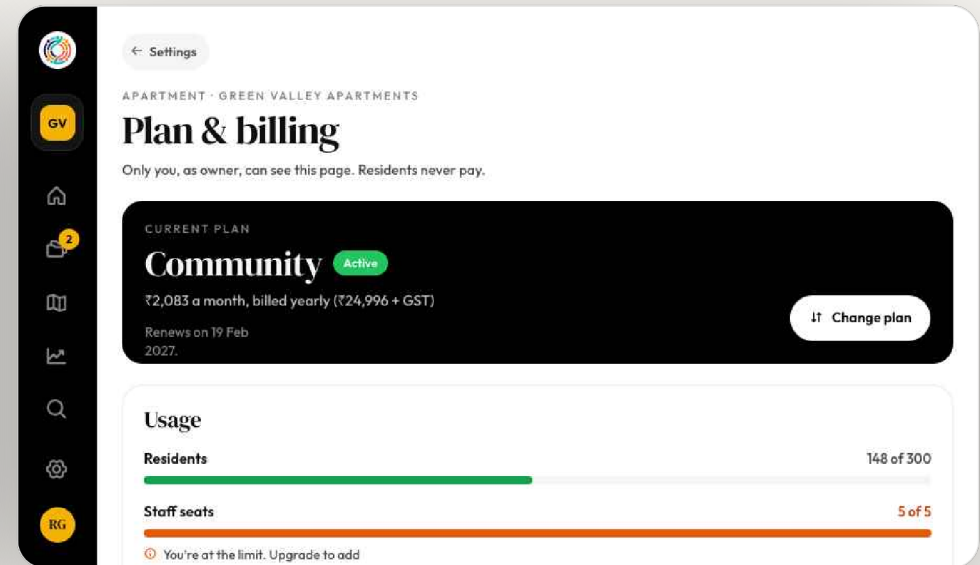

ORGANIZATIONS RUN THEMSELVES

People, roles and billing.

Owner, Admin, Staff and Member roles. Invite links, join codes and approvals.

Members & roles · staff scoped to their teams

Plan & billing · usage, upgrades and invoices

BUSINESS MODEL

Organizations subscribe. Members never pay.

Priced by community size, at about ₹2–10 per member a month. Every plan starts with a 14-day free trial.

Starter

₹999 / month

Up to 100 members · 2 staff
Small apartments, clubs

Community

₹2,499 / month

Up to 500 members · 5 staff
Gated communities, schools

Institution

₹6,999 / month

Up to 3,000 members · 15 staff
Colleges, hospitals, offices

Civic

Custom / year

Unlimited · SSO · open data
Cities and large campuses

GO TO MARKET

Land small. Grow with every member.

1

Self-serve

Apartments and campuses sign up, set up and invite people without talking to us.

2

Guided pilots

City corporations start with one zone, then roll out citywide on the Civic plan.

3

Network effect

One account across organizations. Members bring Koodal to the next community they're in.

IMPACT

Trust that runs three ways.

For people

A voice in their own language
See every step, not a black box
They decide when it's fixed

For organizations

Fewer duplicate complaints
Deadlines everyone can see
Insight into where issues cluster

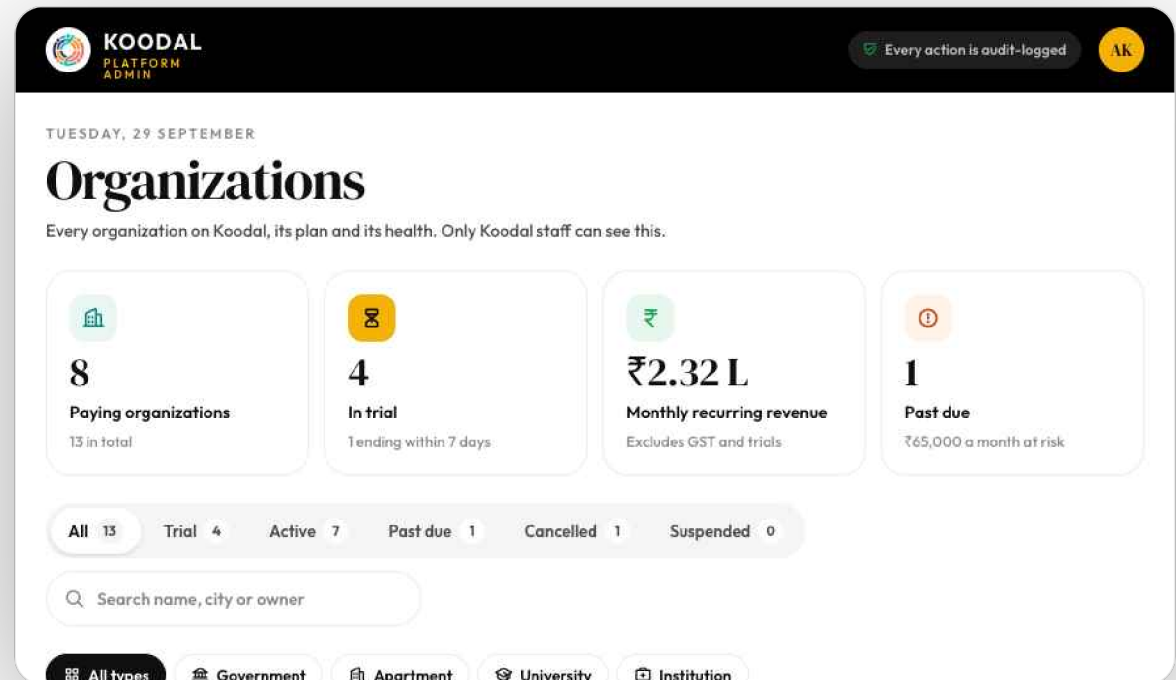

For society

Public accountability by default
Open data on how places are run
Communities that fix things together

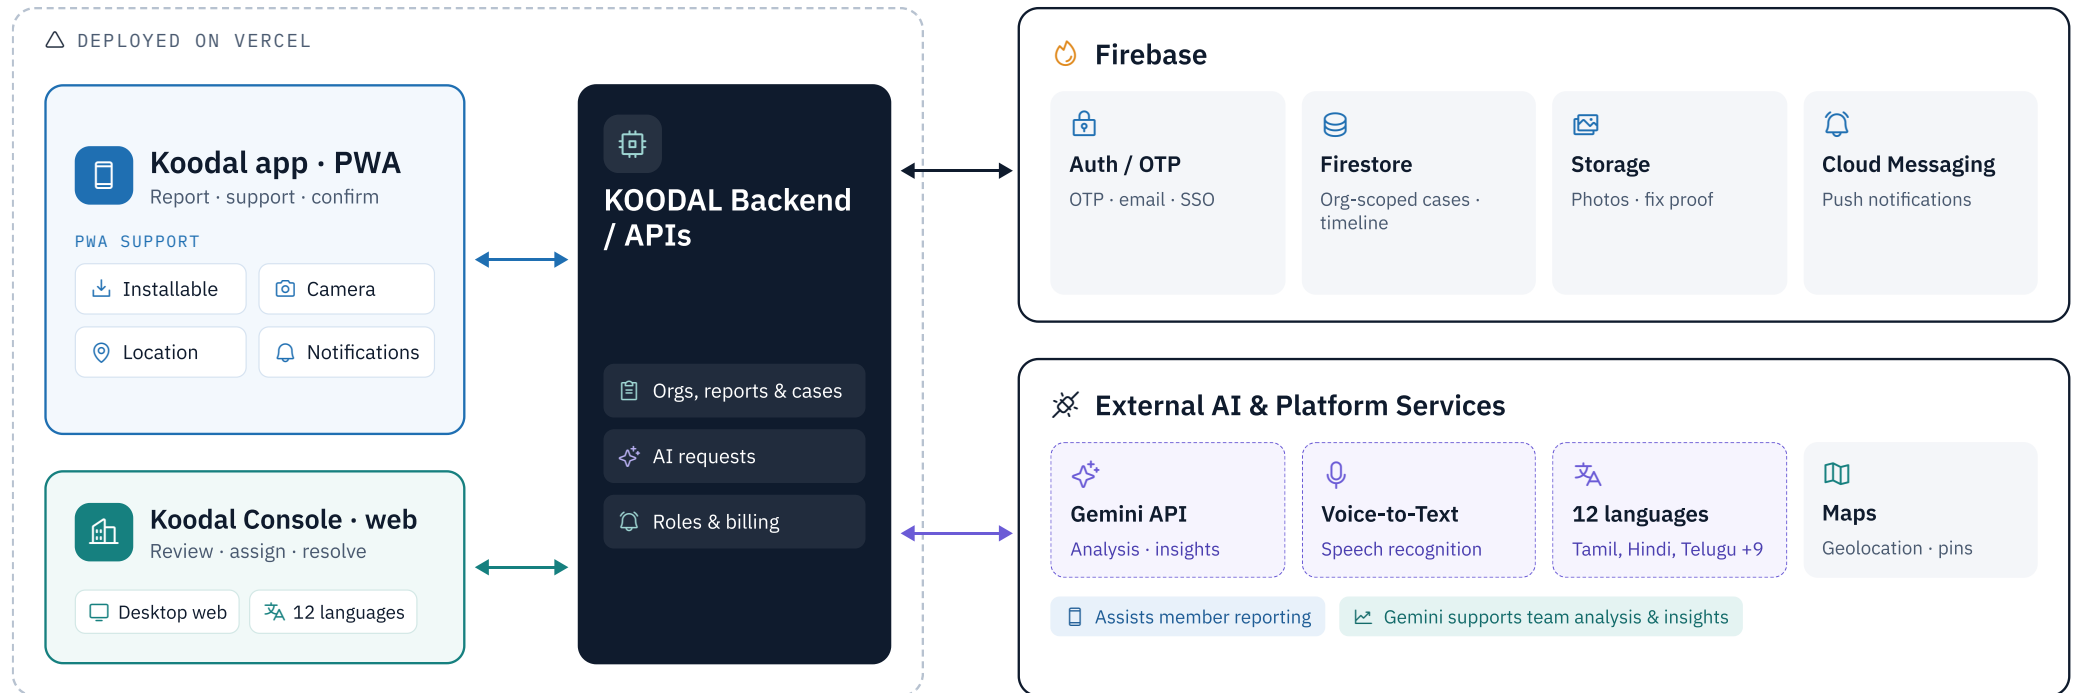

PLATFORM OPERATIONS

Every tenant, one view.

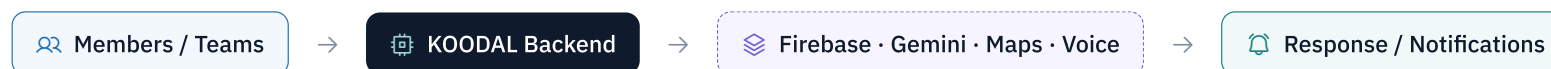

- 📈 Revenue, trials and churn at a glance
- 👤 Support tools with read-only access
- ✅ Every action audit-logged

KOODAL — Technical Architecture

MAIN DATA FLOW

TECH STACK

Small stack, built for many tenants.

Apps

Koodal app · installable PWA

Koodal Console · web app

Next.js + TypeScript on Vercel

Firebase

Auth · phone OTP, email, SSO

Firestore · data per organization

Functions, Storage, push (FCM)

Gemini AI

Category, severity and team

Duplicate detection

Speech-to-text, 12 languages

Multi-tenancy

Org-scoped custom claims

Security rules isolate each org

Audit log on every action

Billing

Razorpay subscriptions

UPI AutoPay and cards

GST invoices, bank transfer

Maps & data

Google Maps and geolocation

BigQuery for insights

Open data export for cities

WHAT'S NEXT

Every community, coming together.

 Report over WhatsApp and IVR
